BUILDING PERMIT APPLICATION

- All Applications for a commercial Building Permit must be accompanied by engendered stamped blueprints.
- Please allow up to seventy-two (72) hours for permit processing after an Application has been approved.
- This Application must be completed in its entirety, signed, and submitted to the City of Stockton in person, via email, or mail.
- Before submitting this Application or beginning any excavation, **contact Missouri One Call (MO 811) at 1-800-344-7483 to locate public underground utilities and contact a private underground utility locator to mark the private underground utility lines that will not be marked by MO 811.**
- The issuance of a Permit does not guarantee that your building project and/or contractor(s) will be approved.
- All contractors providing contract services in connection with this Application must hold a Contractor's License through the City of Stockton.
- Applicants must provide all follow-up information requested by the City of Stockton within one hundred eighty (180) days of the Application Submission Date or this Application will be deemed null and void and a new application will be required.
- No structure may be located in a drainage or utility easement.

Questions? Please Contact the City of Stockton's Building Inspector by phone at (417) 955-0072 or via email at cityinspector@stocktonmo.org.

By signing below, I certify that the information provided herein is true and accurate to the best of my knowledge. The City reserves the right to deny this Application if in the City's reasonable opinion the Applicant did not provide the necessary information required to evaluate the Application and/or fails to abide by applicable law. By submitting this Application to the City, the Applicant agrees to have read and become familiar with Stockton City Code Chapter 500 (Building Regulations) in its entirety and is further agreeing to abide by all applicable laws pertaining to the building project.
